

Naugatuck Valley Council of Governments

Bus Shelter Replacement Project Meeting

The NVCOG is hosting a public meeting concerning the Bus Shelter Replacement Project on Tuesday August 8 at 5:30 pm at the Ansonia Senior Center, 65 Main Street, Ansonia CT. Would you be able to add the event to the municipal calendars of events?

NVCOG in collaboration with Valley Transit District has engaged a multidisciplinary team to design and build bus shelters within the lower valley municipalities of **Seymour, Ansonia, and Derby**. The intent of the project included assessing existing bus stops within these municipalities and several sites have been selected for new or replacement shelters. The bus shelters will be able to accommodate a variety of users for Valley Transit District, CTtransit, and Greater Bridgeport Transit. The project consultant plans to present on the selected sites and solicit public feedback.
